## A New Industry Standard More Tags in Less Time

Roughly three to four times faster than our industry leading LL1000, the LL30XX sets a new standard for productivity. Its speed makes it especially valuable when production lines increase speeds, or when you need more data on your tags.

The LL30XX is just slightly bigger than the LL1000, and it still fits easily on desk tops, or inside control cabinets and pulpits.

- ◆ Sharp, clear text, bar codes, logos, graphics, and user controlled fonts.
- ◆ Higher performance, without sacrificing reliability or versatility.
- ◆ Allows for longer tags and bigger bar codes which can be read at a distance.
- ◆ One-year warranty and lifetime live 24/7 technical assistance.
