

# Featured Capabilities

Your Local Source for Fast Turnaround Technology Solutions

InfoSight's strengths include fast-turnaround prototypes and series-production including custom electronics & board design, software & firmware, machinery & equipment, and precision components.

Our in-house production shop can build to your existing specifications, our engineers can help you replace or modernize obsolete designs, and our R&D technicians can design a custom solution to your specific requirements.

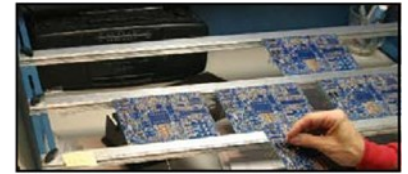

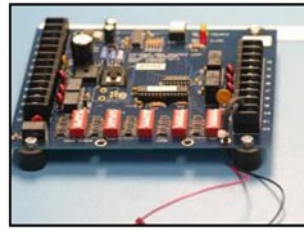

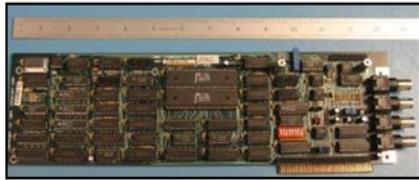

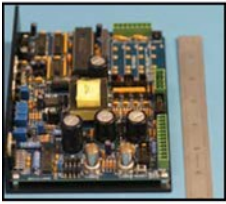

We have unique capabilities in applying CO<sub>2</sub> lasers in harsh environments, and formulating chemistries for applications involving high temperatures (2000°F plus, with inherent resistance to high radiation) and resistance to acids and solvents.

Our uniquely skilled employees perform all work on-site. Our 25-acre campus features the following capabilities:

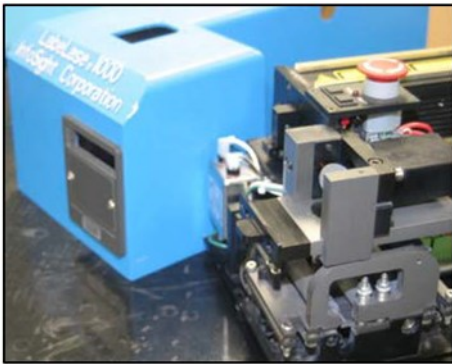

- R&D model shop for rapid prototyping
- Analog & digital hardware and firmware design, including embedded controllers and FPGA
- Custom circuit board design, fabrication, programming, testing and repair
- Full-service mechanical & electrical engineering
- 24-hour service support including preventive maintenance programs
- Control panel layout & fabrication
- PLC programming - all brands
- Custom software development
- Chemistry lab
- 30,000 square foot production plant
- 2 - 10 ton capacity cranes
- Robot integration
- Full machinery fabrication:
  - Precision CNC machining
  - Welding
  - Cutting
  - Milling
  - Grinding
  - Turning
  - Sheet metal work (shear & break)
  - Painting

**From concept to completion - we have the ability to design, engineer, and manufacture one-of-a-kind products to suit your needs.  
No job is too small or too big!**

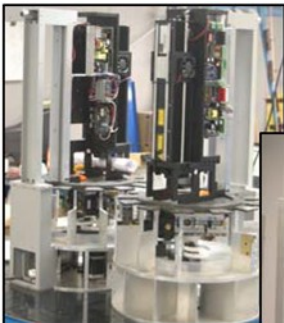

Custom circuit board design, fabrication, programming, assembly, testing and repair

Equipment - both big and small - designed, engineered and built for your specific requirements

With integrated products from other suppliers or stand alone - designed and built with your satisfaction in mind by our uniquely skilled employees

InfoSight is uniquely positioned to fulfill your needs.  
Our skilled employees are ready to make your next request - our first priority.
