

Print-to-Order Metal Tags

For Industrial Processes and High Value Assets

Factory Made Pre-Prints

Industrial-grade metal tags. Custom printed to order. Tracking, traceability and process control for short runs, one-time and third-party jobs, even when budgets are tight.

You provide the design or we can design a tag for your approval. Text, logos, graphics and sequenced fields — even 1-D and 2-D bar codes — all for no extra charge.

Standard tags, including color tags, available for any size order. Standard holes or slots at no extra charge. Bar code verification and expedited production available. Email your data in an Excel compatible spreadsheet. Setup charges, order minimums and special payment terms may apply. Call an InfoSight representative for pricing and availability.

Bar codes for Quick and Error-Proof Identification

Industrial tools, fixtures, lot transport boxes, valves, switches, piping and other devices

Work-In-Process Tracking for Productivity and Worker Safety

Red-hot temperatures, scalding acid, mechanical abuse, extreme weathering, power washing

Compliance with Government Unique Identification Programs

Weather-Proof Identification for Manufactured Products

Acids
Caustics
Extreme Heat
Ocean Environments

Manufacturers Wire Mills
Fabricators Steel Mills
Galvanizers Forges
Asset Identification
Plant Maintenance
