

ShotTag™

Tags for Fabricators and Metal Painting/Bead Blasting Contractors

- For applications where fabricators are identifying pieces before, during, and after bead or shot blasting and painting.
- Resistant to:
 - Heat—1000°F (538°C) after removal of laminate
 - Chemical—see reverse
 - Abrasion
 - UV Exposure
- 3" (76mm) Wide X Customized Length
- Metal substrate with laser markable coatings & specialty laminate

- ◆ ShotTag™ is designed for tracking work pieces through blasting and painting operation.
- ◆ Increase efficiency & reduce handling—tags are applied once and are readable throughout the process.
- ◆ Traceability & error proof installations.
- ◆ Printable with InfoSight LabelLase® Metal Tag Printers.
- ◆ Specialized laminate applied after printing and removed after painting.
- ◆ Lamination can be as a batch with one of InfoSight's Tag Automatic Laminators or individual with Peel and Place ShotTag™ Laminate.
- ◆ Preprinted tags are available.

Find out how easy it is to design and print your tags with a LabelLase® Metal Tag Printer & free Producer™ Software.
