Pickling & Annealing Tags

- ◆ Color Coding works because:
  - ◆ Color is easy to see far away.
  - ◆ People recognize color and its meaning faster than they can read.
- ◆ InfoSight's wide variety of VI™ tags provides color coding options to many applications and harsh environments.
- ◆ Printed on InfoSight LabelLase® Printers with high contrast alphanumeric characters, graphics, and 1D & 2D barcodes. →
- ◆ Preprinted tags available.

Find out how easy it is to design and print your tags with a LabelLase® Metal Tag Printer & free Producer™ Software.
