IDENTIFICATION TAGS**

# WE BARCODE DIFFICULT STUFF®

## Industry-leading Value and Unparalleled Flexibility

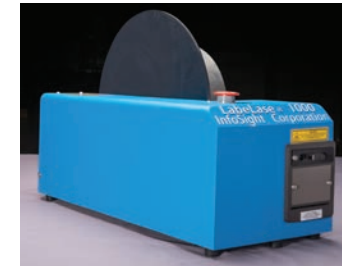

When start-to-finish traceability is a must, InfoSight gets the job done. Our industrial-grade laser markers integrate easily with operating systems to allow you to print our durable identification tags on site and on demand at your facility. We offer a variety of rugged printer models to produce custom barcodes and alpha-numeric characters for a variety of industries. As industrial laser markers, InfoSight's printers operate without consumables, so you never have to buy and replace printer ribbons, ink, or cartridges. Best of all, our free Labelase® Producer™ Software allows you to easily create multiple tag designs and seamlessly integrate with your systems for easy tag production.

## PRINT:

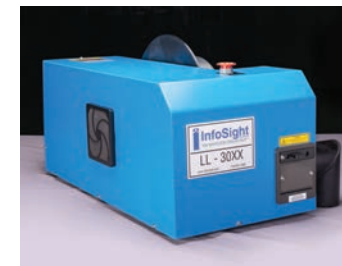

- Text
- Barcodes
- Logos
- Graphics
- User-selectable fonts

# INFOSIGHT PRINTERS
