

20 YEARS OF LASER MARKING TECHNOLOGY IN HISTOLOGY AND MEDICAL LABORATORIES

LIFETRACK TISSUE CASSETTE MARKERS

LifeTrack is the leading laser marker for histology and medical laboratories, offering reliable and long-lasting barcode identification for tissue cassettes. Clinical and research laboratories have relied on LifeTrack technology to accurately identify and trace specimens for more than 20 years. Now this technology is available for purchase direct from InfoSight, the original innovator, developer and manufacturer.

MODELS FOR EVERY LAB

Every LifeTrack doped cassette marker comes with a high-precision laser that can create clear text and scannable barcodes. Whether you want to mark two cassettes or 200, InfoSight has a model that will work for you. ***Whichever model you choose, rest assured that LifeTrack comes with InfoSight's FREE software and lifetime support.***

DC-1
